

SWISS SOLUTIONS

Use the intuitive Mastercam platform to drive
Swiss-style machines with powerful accuracy.

CUSTOMIZED, BUNDLED TECHNOLOGY

Consolidated software can standardize your shop.

You no longer need a separate software package for Swiss machines — something programmers and machinists appreciate.

Our Swiss machining solutions combine Mastercam Mill and Mastercam Lathe with specialized post processors. This configuration adds machine-specific controls inside the Mastercam interface, delivering accurate G-code for a wide variety of Swiss machines.

The solution provides customized choices directly within Mastercam for:

- Swiss-style bar feed stock advance.
- Machine-specific setup parameters.
- Swiss-style pick off / cut off strategies.
- Expandable custom machine options including lasers, high-frequency turning, high-pressure coolant, and more.

Mastercam's industry-leading milling and turning power combine to deliver efficient, precise Swiss programming.

Machine-specific options within Mastercam ensure you have precise control and solid code.

Support an array of Swiss machines with the ease of Mastercam.

Mastercam Swiss Solutions cover gang-style machines and limited gang-turret and B-axis machines. Optimized post processors are available for machines from manufacturers including:

- | | |
|-----------|------------|
| • Star | • DMG MORI |
| • Tsugami | • Hanwha |
| • Citizen | • Ganesh |
| • Swistek | • Nexturn |

Protect your CAD/CAM investment with Mastercam Maintenance. Keep your Swiss strategies and technology up to date with ongoing software updates and exclusive Maintenance benefits.
